What we do with your personal data

We process your personal data only for the purpose for which it is collected. If you use our services or request information, we collect your personal data for use by PIB Group Limited and subsidiary companies. We use this personal data for the provision of information and services or the performance of the contract.

We may use your personal data for other similar purposes, including marketing and communications, but that will only occur if we have your consent or where, as a current or previous user of our services, we rely on a legitimate interest justification for doing so. You have a right at any time to stop us from contacting you for marketing purposes. Please contact us to do so - see above.

The way insurance works means that, if you have a contractual or service relationship with us, your information may be shared with, and used by, a number of third parties in the insurance or risk sector; for example, insurers, agents or brokers, reinsurers, loss adjusters, insurance and benefits platforms, sub-contractors, specific service providers, claim management companies, credit reference agencies, regulators, law enforcement agencies, fraud and crime prevention and detection agencies and compulsory insurance databases. To improve our services, we also occasionally, and optionally, ask our clients to undertake surveys and polls and provide reviews. To do this we use specific service providers. We will only disclose your personal information in connection with the contract or service that we provide and to the extent required or permitted by law.

The personal information we have collected from you may be shared with fraud prevention agencies who will use it to prevent fraud and money-laundering and to verify your identity. If fraud is detected, you could be refused certain services, finance, or employment.

Your data will be held securely in the UK and the EEA. Any other data processing outside of these geographical areas will be undertaken only in locations that are covered by UK data protection adequacy regulations or where UK GDPR compliant appropriate safeguards are in place.
